

Is this the world's best table tennis robot?

Author: Paul Stimpson

Posted On: April 18, 2019

Most of us have played against a table tennis robot at some point – but could you imagine taking on a robot which learned as it played you and could start to read your serves?

That is exactly what Dan Ives of [Table Tennis Daily](http://TableTennisDaily.com) did recently at a technology exposition in Hanover – watch the video below to find out how he got on!
