First look at TT Leagues app

Author: Paul Stimpson

Posted On: June 07, 2019

This is the first look at the functionality of the TT Leagues app which will be launched alongside our new league management platform next month.

It allows for fixture management during play, so team captains can update results from the hall, and has been developed by Rocca Creative, our partners who have created TT Leagues.

The below video gives an overview of the easy-to-use app.

The TT Leagues project is running on time. More than 100 league administrators who have volunteered to help test the platform have been invited to sign up for a training webinar to take place on June 19.

For the latest information on TT Leagues, please visit this page on our website.
