## Watch TT Leagues Webinar

**Author:** [Paul Stimpson](#)

**Posted On:** [September 24, 2020](#)

Our recent TT Leagues webinar offered an overview of the many improvements and updates which have taken place to the platform over the summer, plus a demonstration of how to configure short format leagues.

The webinar was aimed at League Administrators, to support them for the coming season in the light of the challenges being posed by the coronavirus situation.

The webinar also included a refresher in how to set up new competitions for the new season, including different formats which may be needed under the ready to return protocols.

If you missed the webinar, which may also be of interest to all league players, you can watch sections or the full webinar via the links below. We aim to run further webinars in the future, including one on the use of the App.

### What's new on the public facing website

[1:58](#) – Introduction

[3:25](#) – Public website updates

[5:52](#) – Quick links to: tables, fixtures, averages, POTM

[6:07](#) – Player of the match (POTM)
