Ever fancied playing table tennis overseas?

A club in the 2nd division in Belgium are looking for a fresh new English player to play for their side. Given the high standard of play in Belgium they are looking for a British League Premier or good Division 1 standard for the next season.

The club are based in Namur which is 60km south of Brussels and there will be four to five matches or the same at other clubs.

This could be a great experience for any player looking to improve their game and fancy a change of scenery. The current players in their team are aged between 15 and 25 years old so there is a chance for a young player to compete overseas and develop their game.
