

Nationals Archive Plea

Most of the ETTA's archives were lost during a bombing raid in the Second World War and as we are justifiably proud of our history, which we would not wish to forget, we would really like to be able to re-discover and replenish many of our missing items, including some post-War items too that have been mis-laid, if we possibly can. This will hopefully enable us to permanently preserve and protect our heritage for the benefit of all future generations.

In this respect we would mention that we are missing several Championship Programmes, notably many early editions that we would really like to find once again in order to complete our sets and then be able to house them in our safe and secure archive storage facility. If you just may happen to have any of the following missing seasons' Programmes, know of anyone who might, or even just be aware of their possible location, we would really like to hear from you. If you think you can help, then please contact Colin Clemett by e-mail at colin@clemett.demon.co.uk. Thank you.
