UK Anti-Doping has released an App to provide athletes with up-to-the-minute advice and guidance.

The 100% me Clean Sport App is the place for all things anti-doping, helping athletes to make the right decisions on the go. The App provides clear and concise anti-doping advice, guidance and updates to ensure athletes can be clean and stay clean wherever training or competing.

UKAD ensures the App is always up-to-date and will send out alerts if anything important has changed. Other features include the ability to record and store information about medications for doping control, plus directly access Report Doping in Sport.

The 100% me Clean Sport App is available for either iOS or Android and can be downloaded for free via iTunes or Google Play.
