The busy scene at the recent Butterfly Schools' Individual Championships

The English Schools Table Tennis Association is looking to strengthen its competition and delivery team and enhance its communication, press and publicity reporting systems.

The National School Team and National Individual Championships have attracted an ever increasing number of entries year on year. To cope with this increase quantity of entrants and maintain quality events, we need support – either specific expertise or just willing helpers.

Could you offer one, two, three days a year to support the ESTTA competitions or communication?

Would you be prepared to join the ESTTA Executive Committee in order to bring fresh ideas to the table?

Schools' Table Tennis has been a pillar of the development of the sport for almost 50 years.

For more information or to offer much welcomed support, please contact either John Blackband (Chairman) on 01922 627081 or John Arnold (President) on 01924 372597.

We look forward to hearing from you. For more information about the Association please see [www.estta.org.uk](http://www.estta.org.uk).
