I visited Liverpool University last week to do some research and cataloguing of the material held there and came across some more old photographs, a selection of which are below.

[Click here to scroll to last week's pictures](#)

There is no indication of who or where the pictures were taken but the first is marked 1969 and the second 1970. The third and fourth pictures look as if they were taken from the same event, similarly the last three were taken by C Darley but when, where and who is in the pictures needs identifying. Can you help?

I can be contacted on DianeK1414@hotmail.co.uk and all information is much appreciated.
