

Put new life into your old table tennis videos!

Author: Paul Stimpson

Posted On: September 09, 2015

Have you got old table tennis videos which you would like to be converted to DVD format?

If so, Table Tennis England member Eric Hall may be able to help.

He had numerous videos of his daughter Kerry Hall, who was National Junior Champion in 1986, which he wanted to enjoy watching again, so he invested in a conversion kit.

Now he is offering to convert either VHS or camcorder (Cine8 and Hi8) tape for other Table Tennis England members for the cost of £5 per DVD plus postage.

"It occurred to me that there are no doubt lots of players out there with loads of VHS tapes taken at tournaments up and down the country over the years," he said. "This was certainly the case as far as my daughter was concerned.

"The conversion can only be done in real time – a three-hour tape takes three hours to convert – but unless I get inundated I'm sure it will be a fast turnaround."

If anyone would like more information, please contact Eric on ericb.hall@btinternet.com or 07711 083834.
