

Revised Expenses policy for Competitions & Events

Author: Paul Stimpson

Posted On: October 08, 2015

Please [see attached a revised expenses policy](#), I have updated the policy that was released in July following feedback from various people.

To highlight, I have altered the wording in a few places and also added the following paragraph:

If you are volunteering for two or more consecutive days, accommodation may be provided between event days subject to prior agreement with the event organiser.

Obviously those that are local will be expected to go home however this is usually a limited number.

This policy is now live and supersedes the previous one circulated.
