Vulcan Table Tennis Club have been really busy developing their links with the local schools across Sheffield. They have established links with Birley Community School, Rainbow Forge and High Storrs. The clubs experienced coaches have been supporting teachers to help develop their confidence to deliver Table Tennis within the schools and have really benefited from the school club link support.

The photos below are taken from one of the sessions being delivered at Rainbow Forge and where the club currently run their Saturday afternoon Community Session.

Vulcan Table Tennis club have also been busy with the running of some schools matches with Moorhead School playing against Birley Community School, with Birley coming out the winners. This project has been supported by Sheffield United FC through the Premier League 4 Sport programme,

A great example of some excellent development work being achieved by Vulcan Table Tennis Club within Sheffield.
