

## Nomination Form for a Torch Trophy Trust Award

The Torch Trophy Trust Awards are presented annually to nominations from sports governing bodies to recognise grassroots voluntary work for sport in clubs and community initiatives.

In selecting a successful candidate the Trustees will take into account the type of volunteering, length of service and the circumstances under which the nominee has been put forward. The Trustees are actively seeking nominations from the widest range of communities.

This award is not intended for persons of national standing in the field of sport or those who have already received a national or other major honour for their work, although a long service award from a particular sport would not necessarily render a nominee ineligible.
